## Notes to RTS 28 reporting tables

The information has been collated in accordance with the requirements laid out in RTS 28, the Regulatory Technical Standards adopted under Article 27(10)(a) of MiFID II [Markets in Financial Instruments Directive].

As mandated in RTS 28, EEA traded equities, (shares and depositary receipts) have been split by liquidity bands as detailed below. These are based on average daily number of transactions in the most relevant market in terms of liquidity for that instrument.

- (i) Tick size liquidity bands 5 and 6 (from 2000 trades per day)
- (ii) Tick size liquidity bands 3 and 4 (from 80 to 1999 trades per day)
- (iii) Tick size liquidity band 1 and 2 (from 0 to 79 trades per day).

Dundas only trades on behalf of 'professional clients' therefore all reports have been produced in accordance with 'Table 2' requirements under RTS 28.

The distinction between 'passive' and 'aggressive' is not relevant to our trading, and therefore this column has been removed.

There have been no 'directed orders' executed on venues listed in the reports above, and therefore this column has been removed.
